

2025 CLEETS FALL SCHOOL

How transport decarbonisation impacts people and communities

Objective: To improve understanding of how decarbonisation options can impact (all) people and communities, and how to include these impacts in research by CLEETS. The Fall School will run as a Global Classroom, in-person at Birmingham, Cardiff, Chicago and Urbana-Champaign IL, all connected via Teams. It is targeted at post-graduate, post-doctorate and early career researchers, but will be of interest to others, who are welcome to join.

Fall School schedule

UK	US	Schedule
16.30	10.30	Introductions and flash polling online
16.45	10.45	How interventions affect people and communities • Policy perspective: Edith Makra, Director of Environmental Initiatives, Metropolitan Mayors Caucus • Community perspective: Jason Horner, Energy Project Coordinator, ecobirmingham
17.15	11.15	Group work: how can research impact people/communities differentially; what new research questions could that raise? How could populations be segmented to consider impacts?
17.45	11.45	Break
18.00	12.00	Feedback from groups
18.15	12.15	How to design research in/with people and communities • Health Impact Assessments: Karn Vohra, University of Birmingham
18.30	12.30	Plenary discussion
19.00	13.00	Close and refreshments

Monday, 17 November 2025

4:30 PM (UK time)

10:30 AM (Chicago time)

Locations:

University of Birmingham: Elm House

Cardiff University: Abacus 2.26

UIC: UTC Building; Room 341

UIUC: Quade (Newmark Building)

How to attend

To attend in person or online, use the QR code or go to **bit.ly/cleets-fall-school-2025**

Locations and room information will be shared with registered attendees.
